As Host Country, if not already qualified, Colombia will automatically qualify one diver or one mixed team to compete in each of the diving competition events, for the Cali 2021 Junior Pan American Games, to a maximum of eight divers.

According to the quota established by Panam Sports, the maximum number of diving competitors is 64.

Each NOC may enter a maximum of eight divers comprised of men and women if entering mixed team. NOCs not entering divers in mixed team will be allowed to enter a maximum of four divers.

Each NOC may enter a maximum of two divers per individual event and a maximum of four divers for the mixed team event, consisting of at least one male and one female diver.

Athlete eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form.

Only NOCs recognized by Panam Sports whose National Federations are affiliated with FINA and the UANA, may enter competitors in the Cali 2021 Junior Pan American Games.

To be eligible for participation in the Cali 2021 Junior Pan American Games, a competitor must comply with Panam Sports Regulations, FINA rules and must be entered by his or her NOC.

All of the participating athletes must be born between January 1, 2002 to December 31, 2007.

A competitor's nationality will be determined according to Panam Sports Regulations.

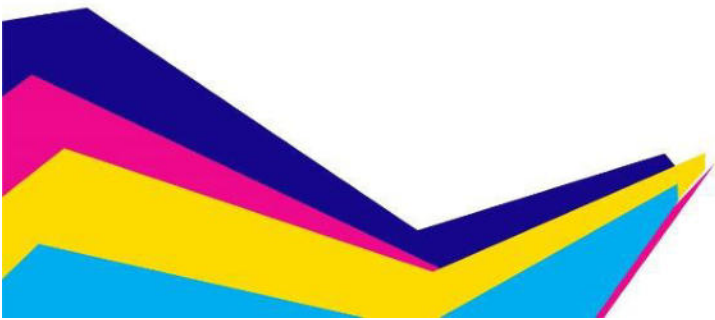

Qualification system

NOCs may only send competitors to the Cali 2021 Junior Pan American Games who have qualified through the system established by UANA.

The objective is to have the top ranked UANA divers compete at the Cali 2021 Junior Pan American Games. NOCs may qualify for quota positions in three ways.

1. Initial quotas were established based on federations who competed at the Pan American Junior Diving Championships in 2019 and 2017 and achieved maximum quotas on average from both championships: federations obtained a quota position for each of their divers who achieved a ranking in the top five of each individual events in Group A and Group B. Federations earning maximum initial quotas were: CAN, MEX and USA, for a total of 24 initial quota positions.
2. Next, the host federation has a maximum quota.

Since there is an overall maximum quota of 64 divers, there are 32 quota positions remaining.

3. Finally, those divers who have achieved a ranking within the top three in an individual event at each qualifying competition of the CONSANT Championships (Zone 1) and CCCAN Championships (Zone 2), may earn a quota position for their federations provided that the total number of divers do not exceed 64 divers on all boards.

Additional divers may qualify at such events but may be subject to Reallocation of Unused Quota Places outlined below.

If there are less than 64 divers following the results at the CONSANT and CCCAN championships, additional quota positions may be allocated by going to next placing in each event at each qualifying event (e.g. 4th or 5th place) until all quota positions are allocated.

If more than 64 divers result from using the same placings at each qualifying competition, they will be reduced to 64 divers by dividing the scores attached by each diver in the same ranking by the winning score at the 2019 Pan American Games in Lima Peru for such event.

The percentages will be ranked in descending order such that the divers placing the same in the qualifying events who achieve the highest percentage of the winning score will receive a quota position, to the maximum aggregate of 64 divers.

Each NOC must submit a list with the names of the proposed divers (long list) to be registered for the Cali 2021 Junior Pan Am Games to UANA no later than June 1st, 2021.

The UANA TDC will review the divers to ensure that they have qualified in accordance with the following events:

Athlete Quota Numbers by Zone (64 Athletes Total)

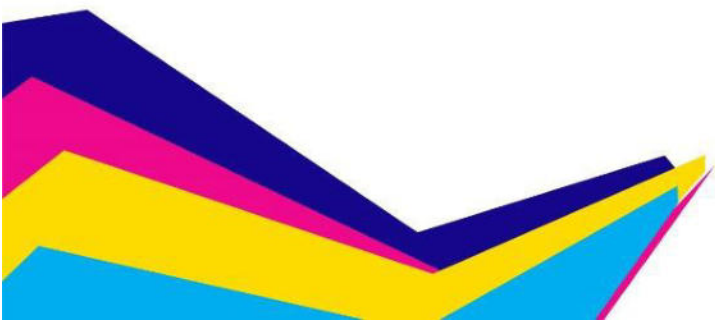

Zone 1 – 20-28 divers, each federation within Zone 1 limited to a maximum of 8 divers, including COL with have a maximum of 8 divers as host nation.

Zone 2 – 20-28 divers, each federation within Zone 2 limited to a maximum of 8 divers, including MEX with a maximum of 8 divers qualified through the initial quota process.

Zone 3 – maximum 8 divers, with USA having a maximum of 8 divers qualified through the initial quota process.

Zone 4 – maximum 8 divers, with CAN having a maximum of 8 divers qualified through the initial quota process.

The number of divers from Zones 1 and 2 will depend upon their rankings and percentage scores from the qualifying competitions. It is possible that there could be 28 divers from Zone 1 and 20 divers from Zone 2 or the reverse.

It is also possible there could be 24 divers from each of Zone 1 and 2.

The first determinant will be the placing at the qualifying competition.

The medallists (or such placing as the UANA TDC may determine that can be applied to both events) from the qualifying competition (excluding any divers already qualified) will qualify a quota position, provided that it results in 64 or less divers in aggregate. Additional quota positions may be earned based on percentage of the winning score in Lima.

The NOCs/NFs must confirm to Panam Sports and UANA the use of quota places obtained, no later than July 3rd, 2021.

Qualification to Santiago 2023

Athlete Eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form.

Only NOCs recognized by Panam Sports whose swimming National Federations are affiliated with FINA and the UANA, may enter competitors in the Cali 2021 Junior Pan American Games.

To be eligible for participation in the Cali 2021 Junior Pan American Games, a competitor must comply with Panam Sports Regulations, FINA rules and must be entered by his or her NOC.

All of the participating athletes must have between 15 and 22 years old (athletes born between 1999 – 2006). A competitor's nationality will be determined according to Panam Sports Regulations.

Qualification System

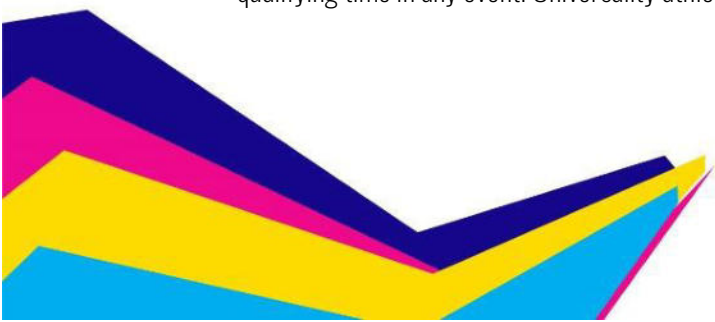

Qualification period: January 1st, 2019– June 21st, 2021

As Host Country, Colombia automatically will qualify 14 male and 14 female competitors.

Each National Olympic Committee (NOC) may use proven swim times attained during the qualification period of those swimmers who have met the qualifying standards established by the Union Americana de Natación (UANA) for the Cali 2021 Junior Pan American Games at a competition recognized by the National Swimming Federation of the NOC submitting the entry. Each NOC must attest that the entry times submitted were achieved during the qualification period and were achieved at a competition conducted under the Federation Internationale de Natation (FINA) rules.

The priority order for qualification and selection into the Junior Pan American Games will be:

1. All athletes who have achieved an "A" time standard (see chart on the last page of this document) will be invited to compete.
2. Universality athletes will be invited to compete. The universality rule applies to those NOCs that do not have athletes with either an "A" or "B" qualifying time, or NOCs that have no athletes invited to the Cali 2021 Junior Pan American Games through the online meet entry system (OME). These NOCs are entitled to have two male and two female athletes entered into the Junior Pan American Games. Universality athletes will be selected separately by gender. An NOC that has qualified one swimmer with either an 'A' or 'B' standard time and that athlete has been invited to compete, may enter up to one additional athlete of the same gender through Universality into the UANA OME system. An athlete invited to compete in the Games under the universality provision may enter three individual events without having achieved a qualifying time in any event. Universality athletes may also participate in mixed gender relays.

3. Relay-only athletes will be invited to compete. NOCs entering relay teams may enter a maximum of one relay-only athlete per gender, as part of their team. Relay-only athletes will be considered as part of the per-team quota of 14 men and 14 women.
4. Athletes who have achieved a “B” time standard (see chart on the last page of this document) will be invited to compete until the quota of athletes for the Cali 2021 Junior Pan American Games is met. If more than 28 spaces remain after the addition of ‘A’ qualifiers, ‘B’ standard athletes will be selected by adding the next fastest B standard athlete to each event until less than 28 quota spots remain. Additional ‘B’ athletes will then be added one at a time to individual events based on FINA point rankings, with those athletes with the highest FINA point rankings selected first, until the quota of athletes has been achieved.

If an NOC has an athlete with “B” qualifying standard, but that athlete is not invited to compete, then that NOC may be permitted to enter athletes via the universality rule (not. to exceed a maximum team of 2 men and 2 women).

Once a swimmer has qualified in at least one individual event and has been invited to the Cali 2021 Junior Pan American Games as an “A” or “B” athlete, that athlete may enter and swim other individual events up to a maximum of five individual events, without having a qualifying time in those other events, provided that NOC has an opening in that specific event. The rule of maximum of two entries per event per NOC still applies,

These additional events must be entered during the OME process described in this document, and no additional event entries, or changes to entries, will be allowed after the entry deadline.

Relays

Each NOC may enter one team in each relay event, provided it has at least three athletes with “A” or “B” standards that have been invited to compete in the Cali 2021 Junior Pan American Games. Each NOC will be allowed a maximum of one relay-only swimmers per gender. All other relay participants must be entered in at least one individual event. Any swimmer entered in an individual event may swim in any relay and does not need a qualifying time in the particular stroke/distance to be swum in the relay to do so. Relay-only athletes are only eligible to swim in the relay(s) and will not be permitted to swim in any individual events. A relay only athlete must participate in at least one relay.

Each team is allowed to have one relay only swimmer of each gender within their team quota allotment. each of these swimmers must swim in the heat or final of at least one relay and must have an A or B qualifying time in the stroke/distance that he/she would swim in a relay. Should a relay-only swimmer not compete, this will lead to the disqualification of the respective team. Further, if a relay-only swimmer does not compete in the heats of a relay in which the NOC fails to qualify for the finals, the relay will be disqualified.

If a relay-only swimmer could swim in multiple relays, but does not compete in any for which he/she is eligible, the final relay for which he/she was eligible will be the relay that is disqualified. In the event that at least one relay event competes directly to finals for that gender, the requirement for relay-only athletes to compete will not be enforced.

If a relay-only swimmer is medically unable to compete, they may be excused from the requirement to participate in a relay. A member of the Panam Sports Medical Commission or their Designee will be present at heats and finals and will be the independent physician empowered to make decisions about relay-only athlete participation.

The physician designated by the Panam Sports Medical Commission and Cali 2021 has final authority to make decisions about athlete's non-participation due to injury or illness (particularly related to relay-only athlete participation in relays, but not limited to this), and to make decisions about permissible use of taping on the bodies of competing athletes.

The relay participants may be completely different between Heats and Finals, with up to eight different swimmers.

An NOC that enters universality athletes at the Cali 2021 Pan American Games is eligible to enter mixed gender relays however they cannot enter relay-only athletes.

UANA Online Meet Entry System

Swimming entries to the Cali 2021 Junior Pan American Games will first be processed by UANA through its OME system. UANA will provide each NOC with an OME system username and password and an OME users' guide (English and Spanish) for the Cali 2021 Junior Pan American Games. This information will be distributed on March 15th, 2021.

The OME entry system opens at 1000 (CT) – April 14th, 2021

Universality Quota Places

UANA will confirm to Panam Sports and invites universality athletes no later than July 7th, 2021.

NOCs will confirm with UANA the participation of universality athletes no later than July 14th, 2021.

Confirmation of Quota Places

Based on the system described in the section above, UANA will inform to Panam Sports and NOCs/NFs the quota places qualified, by July 20th, 2021.

The NOCs/NFs must confirm to Panam Sports and UANA the use of quota places obtained, no later than July 27th, 2021.

Reallocation of Unused Quota Places

If any qualifying country fails to confirm its participation to Panam Sports and UANA by August 3rd, 2021, alternate NOCs, in qualifying order, will be approached to replace them.

The reallocation process will be completed by August 10th, 2021.

Qualification to Santiago 2023

In Swimming, all gold medalist in individual events will qualify directly to the Santiago 2023 Pan American Games. Fourteen (14) spots per gender (28 in total) will be allocated in these competitions.

The athletes who qualify for Santiago 2023 will not have any effect on the delegation size and number of entries per individual event for the 2023 Pan American Games.

These quotas will be for the athletes, not for the country. If the athlete that earned the place cannot participate in the Santiago 2023 Pan American Games, said place will be lost and may not be transferred to the country or to any other athlete placed in another position in the corresponding event of the Cali 2021 | Junior Pan American Games.

- Compound: 1 individual quota per gender, 2 in total.

Athletes eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form. All of the participating athletes should be Under 21 (athletes born in 2001 or after).

Qualification system

Qualification for the Cali 2021 Junior Pan American Games will take place at the International Tournament in Medellín, Colombia, on March 8th – 14th, 2021.

We have designed the qualification system, which will be as follows:

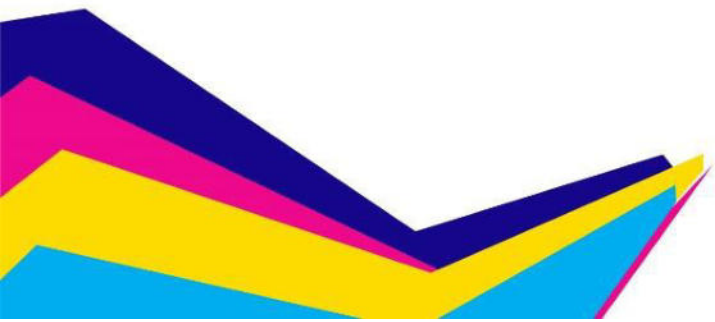

DATE	QUALIFICATION EVENT	QUALIFIED ATHLETES
March 8 th – 14 th , 2021	International Tournament (Medellín, Colombia)	58 athletes

The total number of participants in the Junior Pan American Games by category will be as follows:

- Recurve Women: 22 (6 teams and 10 individual archers)
- Recurve Men: 22 (6 teams and 10 individual archers)
- Compound Women: 10 (individual only) from 10 different countries
- Compound Men: 10 (individual only) from 10 different countries
- Recurve Mixed Team: As many mixed teams as countries that have qualified at least one man and one woman.
- Compound Mixed Team: As many mixed teams as countries that have qualified at least one man and one woman.

For Recurve events

- Two places per gender for each of the first five (5) countries in the qualification tournament's team event. Colombia will be able to participate in the qualifying team event and if it is positioned in the top five, the sixth team will earn two places for Cali. The qualifying team event will follow the same structure of only two archers per country (10 places in total per gender).
- The top ten (10) individual positions by gender (one per country) of archers whose countries did not earn quotas in the team event. If 10 countries are not completed to receive individual places in the qualification tournament, the World Archery Americas Council will exceptionally allocate the unused quota places, based on the criteria of ensuring the participation of as many countries as possible (10 places in total per gender).

For Compound events

- One place per gender for the first five (5) mixed teams. Colombia can compete in the mixed team qualifying event and if it is positioned in one of the first five places, the sixth country would earn the mixed team places (5 places in total by gender).
- The four (4) best individual positions by gender (only one by country) achieved by archers from countries that did not earn places for mixed teams (4 places in total).

Confirmation of quota places

WAA will confirm to Panam Sports and NOCs the places that each NOC has qualified no later than March 17th, 2021.

The NOCs will confirm to Panam Sports and WAA the places they will use no later April 1st, 2021.

Reallocation of unused quota places

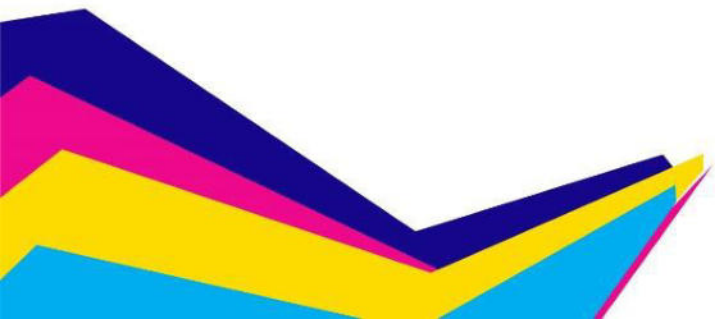

If necessary, WAA will reallocate unused places to the next best positioned NOC that has not yet qualified, no later than April 10th, 2021.

NOCs that received reallocated quotas should confirm their participation no later than April 20th, 2021.

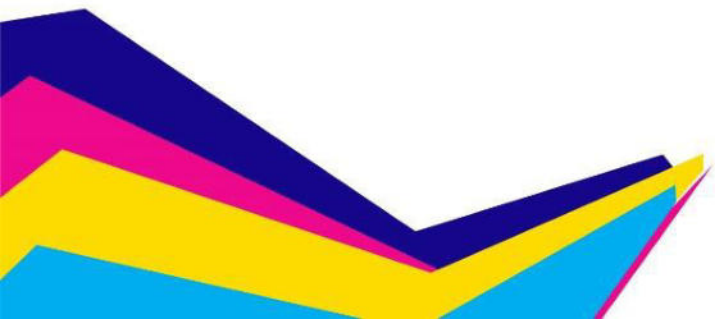

Qualification to Santiago 2023

In Archery, all gold medalist in individual events will qualify directly for the Santiago 2023 Pan American Games. Two spots per gender (4 in total) will be allocated in these competitions.

These quotas will be for the athletes, not for the country. If the athlete that earned the place cannot participate in the Santiago 2023 Pan American Games, said place will be lost and may not be transferred to the country or to any other athlete placed in another position in the corresponding event of the Cali 2021 I Junior Pan American Games.

- Starting with the teams qualified 9, 10, 11, 12 and 13, successively adding one individual gymnast to each team.
- If the Host NOC qualifies under any of the 3 first criteria, the Host NOC's individual quota will be reallocated to the next NOC in the Individual All Around standings that has not qualified yet under any other criteria.

If the Host NOC qualifies 1 gymnast only, the Host NOC may add quotas to participate with a second gymnast or to complete a team of up to 5 gymnasts, with the approval of Panam Sports, the Organizing Committee of the Games and the National Olympic Committee. However, these quotas would be additional to the 57 allocated to the 20 qualified NOCs and the host country must compete in the qualifying event (2021 Junior Pan American Artistic Gymnastics Championship) with individual athletes or a team respectively.

Confirmation of quotas

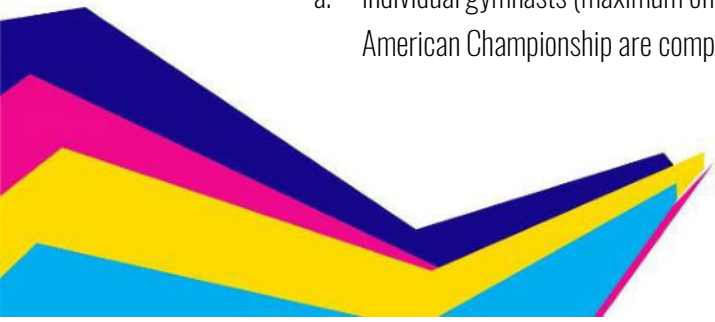

The Pan American Gymnastics Union will confirm to Panam Sports and to the NOCs the quotas that they have earned no later than 15 calendar days after the end of the qualifying competition.

The qualified NOCs should confirm to the Pan American Gymnastics Union the places they will use no later than **TBC**

Reallocation of unused quotas

An order of priority to reallocate the quotas that could be left unused after the NOCs have confirmed their participation has been determined:

1. If a country withdraws its full team (1-8), the team qualification order will be followed to appoint a full new team.
2. In case that a country with a full qualified team withdraws 3 or more gymnasts, it will become part of the group of countries with individual qualification and may only participate with a maximum of 2 gymnasts. The full team quota will be allocated to the next qualified team.
3. If a country with individual qualification withdraws (Teams 9-13) its two gymnasts, the team qualification order will be followed to appoint a new country for qualification with 2 individual gymnasts.
4. Any other unused quota will be allocated as follows:
 - a. Individual gymnasts (maximum one per country) until all of the countries that participated in the Junior Pan American Championship are completed.

- b. A third gymnast to the countries qualified 9-13
- c. A fourth gymnast to the country qualified 9
- d. A fifth gymnast to the country qualified 9
- e. A fourth gymnast to the country qualified 10 and so on.

- If the Host NOC qualifies for individual competition under any of the 2 first criteria, the Host NOC's individual quota will be reallocated to the next NOC in the Individual All Around standings that has not qualified yet under any other criteria.

If the Host NOC qualifies 1 gymnast only, the Host NOC may add quotas to participate with a second individual gymnast and/or with a group of up to 5 gymnasts, with the approval of Panam Sports, the Organizing Committee of the Games and the National Olympic Committee. However, these quotas must be additional to the 46 allocated to the qualified NOCs and the host country must compete in the qualifying event (2021 Junior Pan American Rhythmic Gymnastics Championship) with individual athletes or a group respectively.

Confirmation of quotas

The Pan American Gymnastics Union will confirm to Panam Sports and to the NOCs the quotas that they have earned no later than July 9, 2021.

The qualified NOCs should confirm to the Pan American Gymnastics Union the places they will use no later than July 23, 2021.

Reallocation of unused quotas

An order of priority to reallocate the quotas that could be left unused after the NOCs have confirmed their participation has been determined:

Individual Competition:

1. If a country with 2 individual gymnasts (quotas 1-12) declines the participation of 1 or 2 gymnasts, the 2 quotas will be allocated to the next country in the team standing of the Qualifying Competition. The country that declined may keep 1 individual quota (quotas 13-15) if the gymnast is in the top 3 positions of the individual All Around qualification, not considering the countries that earned 2 quotas according to the team results.
2. If a country with an individual quota withdraws its gymnast (quotas 13-15), the individual All Around qualification order will be followed to appoint a new country.

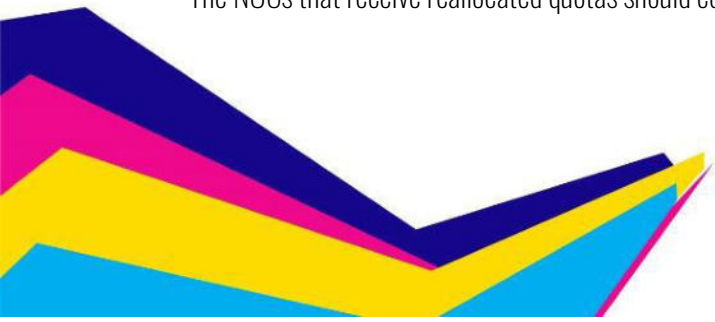

Group Competition:

1. If a country with a Group (quotas 1-6) declines its participation, the quota will be allocated to the next country in the All Around results of the Group Qualifying Competition.

NOTE: In any unforeseen case, the corresponding TC will make the decision, with the approval of the PAGU Board.

If necessary, the Pan American Gymnastics Union will confirm the reallocation of quotas no later than July 30, 2021.

The NOCs that receive reallocated quotas should confirm their participation no later August 6, 2021.

Additional Observations

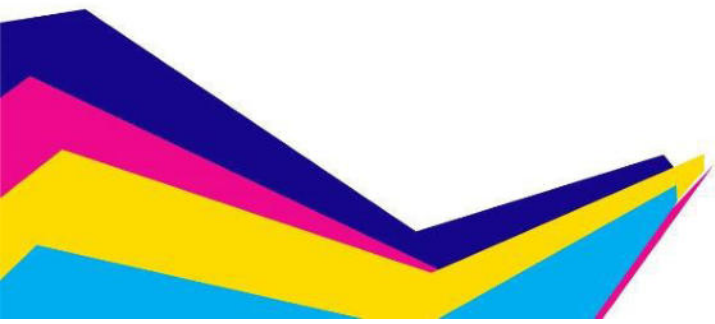

Gymnasts	According to qualification
Coaches	A maximum of 3 (1 for countries with individual gymnasts and/or 2 for countries with a Group)
Judges	By appointment by the PAGU's RG Technical Committee and that fulfill the required FIG category. If possible, priority will be given to qualified countries and to the Members of the PAGU Technical Committee.
Head of Delegation	Maximum of 1

Athletes eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form.

Athletes must be at least 15 years old and up to 20 years old by the day the competition begins.

Qualification system

- Panam Sports approved 64 quota places for Cali 2021.
- Quotas will be awarded in a qualification event for the Junior Pan American Games will be held in El Salvador on March 8th – 14th, 2021.
- Quotas will be awarded according to the position obtained by the competitor in the qualification event for shooting, according to the competition program.
- 15 athletes will qualify for each of the 4 individual events.
- In order to guarantee the participation of the host country in all events, the host country will have 4 places (1 for each event), Colombia will be able to obtain the other 4 places (2 men and 2 women) through qualification to complete the maximum quota of 8 places per country.
- Quotas will be allocated after the conclusion of the 4 individual events of the qualification event.
- Quotas will be allocated to the countries positioned in the first places of the 4 individual competitions.
- Then, a quota will be allocated to the countries that finished in second places in each competition.
- Then, a quota will be assigned to the countries that finished in third place in each competition: if a country already has the maximum number of athletes per event or per gender (male, female), the quota will be granted to the country in the following position.
- This process will be repeated until 15 athletes per modality are completed; this way a fair distribution of quotas in the 4 modalities is guaranteed, based on the position obtained in the qualification event and ensures that 15 competitors per modality are obtained.
- An athlete can only earn one spot. If the athlete repeats in another event in a position with quota, this will be transferred to the next shooter without previous quota.
- Federations must use their qualified athletes in their individual events to enter the Mixed Pairs event.
- The places earned must be used in the event in which it was obtained or exchange it for another event of the same discipline. However, athletes will not be able to switch between disciplines such as Rifle for Pistol (for example: the federation may reassign a quota obtained in Men's Air Pistol for women's Air Pistol). This protects the integrity of the discipline.
- Unused quota places must be returned to the CAT president for redistribution as soon as possible, but no later than 90 days prior to the Opening Ceremony of the Games.

Qualification to Santiago 2023

In Wrestling, according to Article 27 of the Wrestling International Federation competition regulations, which provides that: "Each National Federation may enter a maximum of one wrestler per each weight category", the winners (the NOC not the athlete) of the GOLD medal in the Cali 2021 Junior Pan American Games, will qualify directly to the Santiago 2023 Pan American Games as the ninth athlete.

In total, 6 places for women and 12 places for men will be allocated in these competitions. If the NOC that earned the place cannot participate in the Santiago 2023 Pan American Games, said place will be lost and may not be transferred to other country or athlete placed in another position in the corresponding event of the Cali 2021 I Junior Pan American Games.
