

2011 Final Women's Track and Field Rankings

The rankings below reflect all performances on record with US Paralympics. The ranking list provides the athlete with information as to where they are in preparation for London. The percentage of the National Team A provides an insight into what events are the strongest events for each athlete. The dates of competition and results provide some insight into training and preparation for competition. The percentage will also be used as a portion of the selection criteria for London (see Team Selection procedures).

Color Code: Green means the athletes performance is a valid performance. White in the class field indicates the event is not held for that class. Yellow indicates that the performance is not valid for London Qualifying (not an IPC Approved event, not IPC licensed at the time of the performance or over the allowable wind of 2.0).
