

Figure Sport Committee Update - 9/27/19

1. RollArt Testing for Judges and Technical Callers:

The FSC's sub-committee, RollArt Technical Committee is working hard on training and updating Officials for this skating season. Additionally, they are checking on commissioned Judges that would like to test this season, for World Skate Judges and Technical Callers. There will be testing Lisbon, Portugal, the week after America's Cup in January 2020 for each discipline. We are also working with World Skate for possible testing for Judges only, not Technical Callers, at America's Cup, but haven't finalized yet.

If you're are interested in attending the Portugal testing or the possible America's Cup testing, please use the link below to be considered as one of the 2 candidates for each position, in each discipline.

Please fill out by October 15, 2019.
