

Junior Olympics

All competitors for Junior Olympics must compete in at least one figure group

Figure Registration-

Each swimmer registering for Junior Olympics must designate the figure group or groups they are competing in. If swimming a 12 and under routine, choose 12 and under figure group, 13-15 routine, choose 13-15 figure group, 16-19 routine, choose 16-19 figure group. If you compete in more than one age group routine event (example: 13-15 Solo and 16-17 Team) choose all matching figure groups. Competitors only choose multiple figure groups if they compete in multiple routine age groups. The head scorer will add honorary designations as required.

If competitors are only swimming the Free Combination event, and their age differs from the routine age group, then the coach may choose for the swimmer to compete in their own age figure group or the older figure group. Example: if you swim on a 13-15 free combination team and were born in 2005 you could swim 12 and under figures or 13-15 figures. The competitors must register for only one figure group.

Combined Team Free Combination Entries-

Free Combination entries may consist of registered competitors from 2 or more U.S. clubs. The name of a multiple club entry must not reflect a particular club. In addition to the standard entry forms required for the competition, the coach of a **multiple club entry must submit a Release Form** for each competitor in the event to the USA Synchronized Swimming National Office, the Meet Manager and the Scoring Chair. The Release Form(s) must be signed by the club coach of each competitor.

Credentials-

Each club will receive free coach and chaperone credentials with their team registration per the chart included in the final meet announcement. Additional coach and chaperone credentials are available for \$15 each.

All coaches, judges and chaperones need to register online even if free credentials are included with their team registration. The free credentials will not be available if you did not register online.
